

**Technical Overview of the CLEVER Model 2021 Presentation  
Presented April 29, 2021 by Dr. Charles Luo  
Selected comments from the audience**

“Let Charles know that I enjoyed his presentation. He is very funny.”

“Thank-you for the invitation! At one point I was laughing so hard I couldn't hear what you were saying.”

“Thanks for the informative presentation, complete with CLEVER humor.”

“I very much enjoyed your presentation today. Very funny and the model development and inputs were well described. Nice to see the improvements you have made as well.”

“I burst out laughing on multiple occasions. Hahahaha.”

“I think you are the master of bringing some humor to technical science info – I got the sense from the side bar discussions that people appreciated that. Thanks for the hard work in pulling together and delivering.”

“Yes! I echo everyone’s comments about how great this presentation was; the humour was really amazing, especially as we had quite a varied group of people with a range of technical backgrounds. Lots of comments in the Q&A about how people didn’t expect this presentation to be funny, but that they were laughing out loud. Well done! And FYI – registration topped out at 307 participants! Whoo!”
