Ministry of Water, Land and Resource Stewardship

ENDED – High Streamflow Advisory – Fraser Canyon, Chilcotin, Fraser Valley
Issued: 9:30AM November 13, 2026

The River Forecast Centre is ending the High Streamflow Advisory for:

- Fraser Valley including areas around Chilliwack and Hope
- Fraser Canyon
- Chilcotin

Weather Synopsis:

Periods of heavier rain have eased. Continued light rainfall is forecasted into Saturday, with the potential for moderate rain later Saturday and into Sunday.

River Conditions:

River levels are expected to remain elevated through the weekend, however significant rises are not expected at this time. Advisories will be re-issued if this outlook changes as the weekend weather pattern unfolds.

The River Forecast Centre continues to monitor the conditions and will provide updates as conditions warrant.

A ***High Streamflow Advisory*** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Fast-flowing bodies of water increase risk to life safety. Minor flooding in low-lying areas is possible.
A ***Flood Watch*** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.
A ***Flood Warning*** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
